# ABOUT US

We are a diverse board of practitioners and helping professionals dedicated to supporting the learning, community of practice, and advocacy for individuals and organizations that study, practice, and receive behaviour analytic services. The majority of our membership serves neurodiverse children, youth, and young adults in order to support their growth, well-being, and greater quality of life.

The BC-ABA Board meets monthly to coordinate and support BC-ABA initiatives and to ensure that members of BC-ABA are supported to engage in our community through effective, individualized, and compassionate practice.

# SPONSORSHIP BENEFITS

BC-ABA's 15th Annual Conference will be the largest congregation of behaviour analysts in western Canada!

## March 03, 2023

Keynote addresses from distinguished guests (Evening, Virtual)

## March 04, 2023

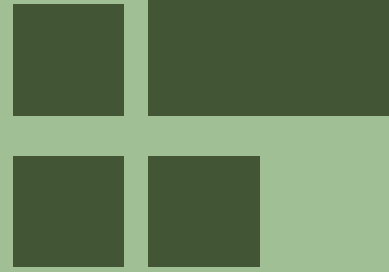

Full day conference at the University of British Columbia, including breakfast, invited speakers, lunch and poster session, and breakout presentations related to the theory and clinical applications of behaviour analysis.

## Sponsorship of our conference will:

- Provide access to over 250 practitioners, educators, service providers, community partners and students from across British Columbia.
- Facilitate continuing education for clinicians and service providers in the field of applied behaviour analysis, many of whom provide therapeutic support to neurodiverse children, youth, and young adults.
- Support a distinct community of professionally-informed and regionally-connected practitioners for individuals with a range of diverse abilities and disabilities
